

BATTERY SWITCH ACCESSORY TAP

Easily connect any marine accessory directly to the battery switch

Features & Benefits

Features:

- Easily attaches to battery switch contacts
- For use with PERKO® 8511, 8512, 9611 and 9612 series compact battery switches
- Connect up to three ring terminals on the #8 screw

Benefits:

- Allows for direct connection of accessories to the switch
- Great for attaching accessories such as bilge pump, vhf radio or a blower motor so they will run independently of the switch being turned on

Technical Specifications

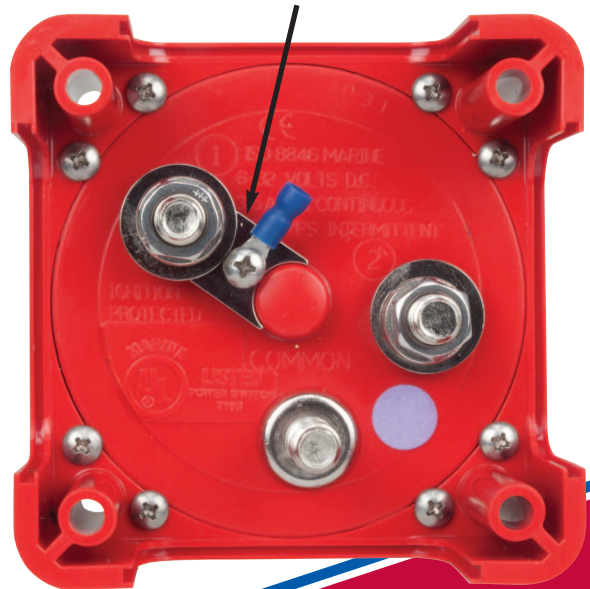

Material & Finish:

- Nickel plated brass
- Includes #8 terminal screw
